LIQUID CATARRH REMEDY

Care Warranted if Directions are Followed.

Single bottle will last a month—to be used three times a day.

SYMPTOMS.

The symptoms of Catarrh are at first very slight. Persons find they have a cold, that they have frequent attacks, and are more sensitive to the changes of temperature. In the condition the nose may be dry or a slight discharge, thin and acid, afterwards thick and adhesive, may ensue.

As the disease becomes chronic, the discharges are increased in quantity and changed in quality; they are now thick and heavy, and are hawked or coughed off. The secretions are offensive, causing a bad breath; the voice thick and nasal; the eyes are watery; the sense of smell is lessened or destroyed; deafness frequently takes place.

Another common and important symptom of Catarrh is, that the person is obliged to clear his throat in the morning of a thick or slimy mucus, which has fallen from the head during the night. When this takes place, the person may be sure that his disease is on its way to the lungs, and should lose no time in arresting it.

The above are but few of the many Catarrhal symptoms. Write to our Laboratory for our pamphlet describing fully all symptoms; it will be sent FREE of charge. Also directions where to procure the medicine.

We are daily receiving letters from soldiers in the army, and others in all parts of the Union, and also numerous testimonials from those using it, bearing evidence of its infallible merits.
